CONFERENCE SPONSOR AND EXHIBITOR OPPORTUNITIES

The conference offers opportunity to become a sponsor and/ or exhibitor. The conference chair may be contacted for obtaining further information.

PAPER PUBLISHING

All conference papers duly submitted will be blind peer reviewed by competent reviewers. The selected papers will be published through renowned national and international publishers and get indexed in databases including Web of Sciences and Scopus. Publishing criteria of each publisher will differ.

BEST PAPER AND BEST POSTER AWARDS

Certificates of Excellence will be awarded for the best poster and oral presentation.

ACCOMMODATION

Delegates are required to make their own arrangements for stay. However, the organizing committee will assist to find nearby hotels. Delegates who are in need of accommodation may contact organizers in advance and book their rooms.

REGISTRATION FEES

Type	Category	Before 15 th November, 2019	After 15 th November, 2019
Indian (INR)	Research Scholars	2000	2500
	Faculty	2500	3000
	Industry Delegate	3000	4000
	Academic Groups (4 People)	7000	10000
Foreign (INR)	Research Scholars	7000	8000
	Faculty	8000	9000
	Industry Delegate	10000	11000

For registration and abstract / full paper submission, please log on to our website, www.icee2k19.org. The articles submitted as full paper will be reviewed (blind peer review) and the selected papers will be published by renowned national and international publishers (indexed in databases, including Web of Science and Scopus).

ABOUT THE INSTITUTION

T.K.M. College of Arts and Science, established in 1965 by Janab A. Thangal Kunju Musaliar, is an acclaimed citadel of learning in the city of Kollam. Affiliated to the University of Kerala, the institution is accredited by NAAC. It is ranked 80th by the National Institutional Ranking Framework (NIRF) in 2019, which bears testimony to its potential for excellence and the unparalleled prestige it commands in the academic community. The institution, with its ten undergraduate, six post graduate programmes, three research centres and state-of-the art infrastructural facilities, aims at the creation of a community of students empowered and equipped with knowledge, skills and values, who would contribute effectively to nation building. Many renowned scientists, both from India and abroad, including the Nobel Laureate in Chemistry in 2010, Prof. Ei-ichi Negishi, have visited the college.

ABOUT THE CONFERENCE

The most crucial issues in the contemporary world are energy and environment. T.K.M. College of Arts and Science aims to attain more awareness on these issues by proudly hosting an International Conference on Energy and Environment from December 12th to 14th, 2019. This international event is jointly organized by the Departments of Chemistry, Physics and Mathematics. The theme of the conference is **‘ENERGY AND ENVIRONMENT’**. The aim of ICEE 2K19 is to provide a platform for researchers, faculties, engineers, academicians, technologists, scientists, industrialists, environmentalists, and experts to showcase their novel research in the field of Energy and Environment. The conference has special thematic sessions on the recent advances in interdisciplinary research on the generation, storage, conversion and efficient utilization of energy.

ICEE 2K19 will provide an excellent platform to exchange ideas with the leading experts across the globe. The scientific sessions of this conference have specific plenary and invited lectures, overviews, state of the art lectures and interactive education sessions, featured symposia, breakout sessions, and oral and poster presentation sessions for abstracts. It gives opportunities for the delegates to exchange new ideas and experiences, to create an environment for collaborative endeavours in emerging frontier interdisciplinary areas, to establish research relations and to find global partners for future collaboration.

THEME AND SUB THEME

Renewable Energy (RE)

Solar cell materials and solar cell technology
Hybrid energy systems
Solar thermal applications
Nanotechnology applications to RE
Hydroelectric, geothermal, tides and waves
Integrated energy systems
Renewable power generation

Fuels and Combustion

Hydrogen energy
Fuel cells
Batteries
Hybrid and electric vehicles
Bio-diesel fuels
Fuel additives
Alternative fuels
Industrial emissions and their control
Water splitting
Green energy
Energy resources
Air-Liquid energies
Low carbon transportation

Advanced Technologies

Energy issues
Advances in sustainable energy
Energy efficient devices
Sensing and storage devices
Biomass conversions
Computational studies
Modelling and simulation
Electricity from waste
High voltage engineering
Non-renewable energy
Smart grids
Superconductors

Advanced Functional Materials

Nanoscience and nanotechnology
0D, 1D, 2D and 3D nanomaterials
Electronic and magnetic Materials
Polymeric nanoparticles
Biomaterials
Characterization of nanomaterials
Nanocomposites

Photocatalysis
Electrocatalysis
Nanophotonics
Nanoelectronics nanofluids
Nano-porous materials
Nanomaterial toxicity
Nanodevices
Application of nanomaterials
Bio-nanocomposites
Organic-Inorganic hybrids
Supramolecules
Meta materials
Smart materials

Thin Films

Coatings
Thin film preparation
Functional surfaces
Surface engineering
Applied surface science
Surface science in energy conversion and storage
Surface characterization tools
Applied materials and interfaces
Thin film Applications

Sustainable Environment

Environment impact assessment
Environmentally-friendly materials
Ecology and biodiversity conservation
Environmental pollution & management
Climate change and global warming
Remote sensing and environment
Waste recycling/management
Carbon emission and control
Pollution control and management
Sustainable agriculture
Sustainable chemical processes
Sustainable building materials
Biotech for sustainability
Ecological sustainability
Artificial photosynthesis
Green agricultural technology
Environmental protection
